

Please do not allow LPFM stations to take priority over current FM translators. KLOVE radio station has been in the Portland, OR area for many years now, and has provided a great service to me, my wife, and especially my children. If KLOVE were displaced by an LPFM broadcaster using other programming, many kids and adults who depend on the encouraging broadcasts, would be left without good/positive music and words throughout their (our) everyday lives. KLOVE is definitely in the public interest here in the Portland metro area because of the uplifting message that is broadcast throughout each and every day, 24 hours a day, 7 days a week.
Thank you, Bret Rickman.
